| Budget Update 6:10 - 7:20 pm | <input checked="" type="checkbox"/> Information <input type="checkbox"/> Input <input type="checkbox"/> Decision | Information regarding 2011/12 Budget from Steve Towne and BPT | <p>Dr. Ron Cabrera gave an overview of the district's budget process.</p> <ul style="list-style-type: none"> The Budget Proposal Team (BPT) approach is to stay consistent this year and last. The values are broad with diverse participation. The collective process is to moderate; to be a policy group with proposals directed at conserving while advancing the district. Legally the district has a couple of requirements 1) to bring the community in to the process 2) the board then has final authority. <p>Steve Towne distributed and detailed four (4) budget documents for the group.</p> <ul style="list-style-type: none"> Budget Matters have been posted and available on the district website along with public forum dates and locations. The goal of the district and the Budget Proposal Team has been to bring transparency and understanding of TSD's funding future; to bridge and minimize the impact on programs | <input type="checkbox"/> Complete <input type="checkbox"/> Carryover <input type="checkbox"/> Table |

| Next Year's DAAC Discussion/Ideas 7:20 - 7:50pm | <input checked="" type="checkbox"/> Information <input checked="" type="checkbox"/> Input <input type="checkbox"/> Decision | Prepare for next year's DAAC committee | <p>Introduction of Nathan Balasubramanian, the district's new Accountability & Accreditation Director.</p> <ul style="list-style-type: none"> Nathan expressed he's very glad to be here and looks forward to the work ahead. He likes to give meaning to numbers, to transform them into information and insight compelling enough to act upon. <p>Jody led a group activity with jigsaw of comic strips which provided a different mix of introductions and interactions in small groups.</p> <ul style="list-style-type: none"> The goal is to structure DAAC differently next year, similar to tonight's activities. To first congregate as a big group, break in to smaller groups and then join back up as a large group to share ideas. DAAC synopsis: how to be more involved in the process and less reactive; inspire innovative discussions to improve pro-activity, continuity and collaboration; listen and recognize everyone's different lenses. Increase participation, appreciation and insights brought by community members, i.e. achievement gap. Also, to make goals more achievable. Come to expect varied opinions which can be difficult to summarize. Clarify what DAAC is asking for, what the goals are. Remember, those in the community have to first learn the language/acronyms. Education is an investment, not a responsibility, and encompassed by community. Remember to communicate in layman terms. | <input type="checkbox"/> Complete <input checked="" type="checkbox"/> Carryover <input type="checkbox"/> Table |
